

Quality Non-Emergency Transportation Services: What to Expect from LogistiCare Medicaid Transportation Providers

To participate as a LogistiCare transportation provider in Rhode Island, a provider must first be registered with Rhode Island, and second, must meet all LogistiCare insurance, driver and vehicles standards. Medicaid members and medical practitioners should therefore expect:

- Timely service;
 - For “Routine” or “Standing Order” trips, pick-ups to occur no earlier than 15 minutes before nor later than 15 minutes after the scheduled pick-up time.
 - For “Routine” or “Standing Order” trips, drop-offs to occur on time or early, but not more than 30 minutes early.
 - If the member says he/she “will call” for pickup after their medical appointment the driver will arrive within 60 minutes of when LGTC received the call.
 - For “Urgent” care trip, the driver will arrive as soon as possible but not longer than 3 hours from when LGTC received the call.
- Rides in duration of not more than 30 minutes longer than the direct transport time if the member was riding in the bus/public transit;
- Provider employee sensitivity to the population;
- Courteous provider employees;
- Clean, non-smoking vehicles;
- Diligent care provided to all passengers; and
- Appropriately, adequately heated and air conditioned vehicles (i.e., heat in winter, air conditioning in summer) and all seats have seat belts.

Although it is often difficult to accommodate the needs of a medically-fragile population, we expect appropriate transportation for all Medicaid members, and that every effort will be made to meet the needs of those members.
