

TripCare is a one-stop solution for viewing and managing patient transportation

Healthcare Facilities

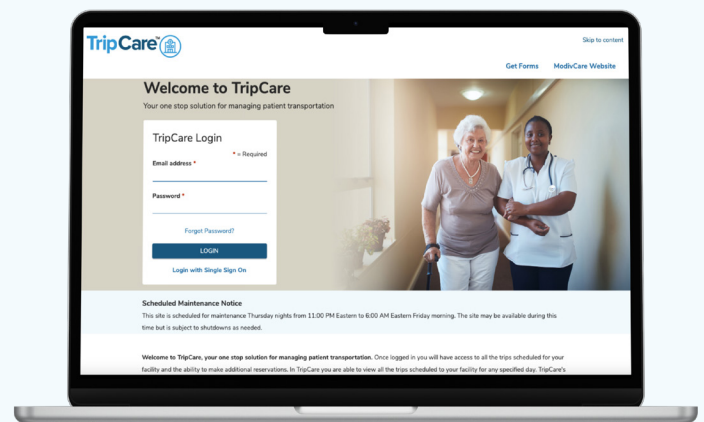

- Request transportation to ensure patients are able to attend their appointments
- 24/7 Accessibility through any web-enabled device – manage trips when it's convenient
 - No need to call in or wait on hold
 - Quickly see and manage transportation for multiple patients for one or more facilities
 - Paperless

Features:

- Request single trips or standing orders (recurrent rides for treatments like dialysis)
- Immediate upload and submission of required forms
- Search, view and monitor status of trip requests
- Edit or withdraw trip requests
- Recertify, update, and terminate standing orders
- Monitor details of scheduled trips
- Cancel scheduled trips up until the day before the trip
- Submit on-line attendance log to Modivcare

Benefits:

- Transparency into patient transportation
- Easy-to-use platform saves time scheduling and managing routine rides and standing orders
- Focus on the members you serve instead of calling into the contact center
- Incorporates each members' plan requirements into its scheduling system
